**COMMENTS**

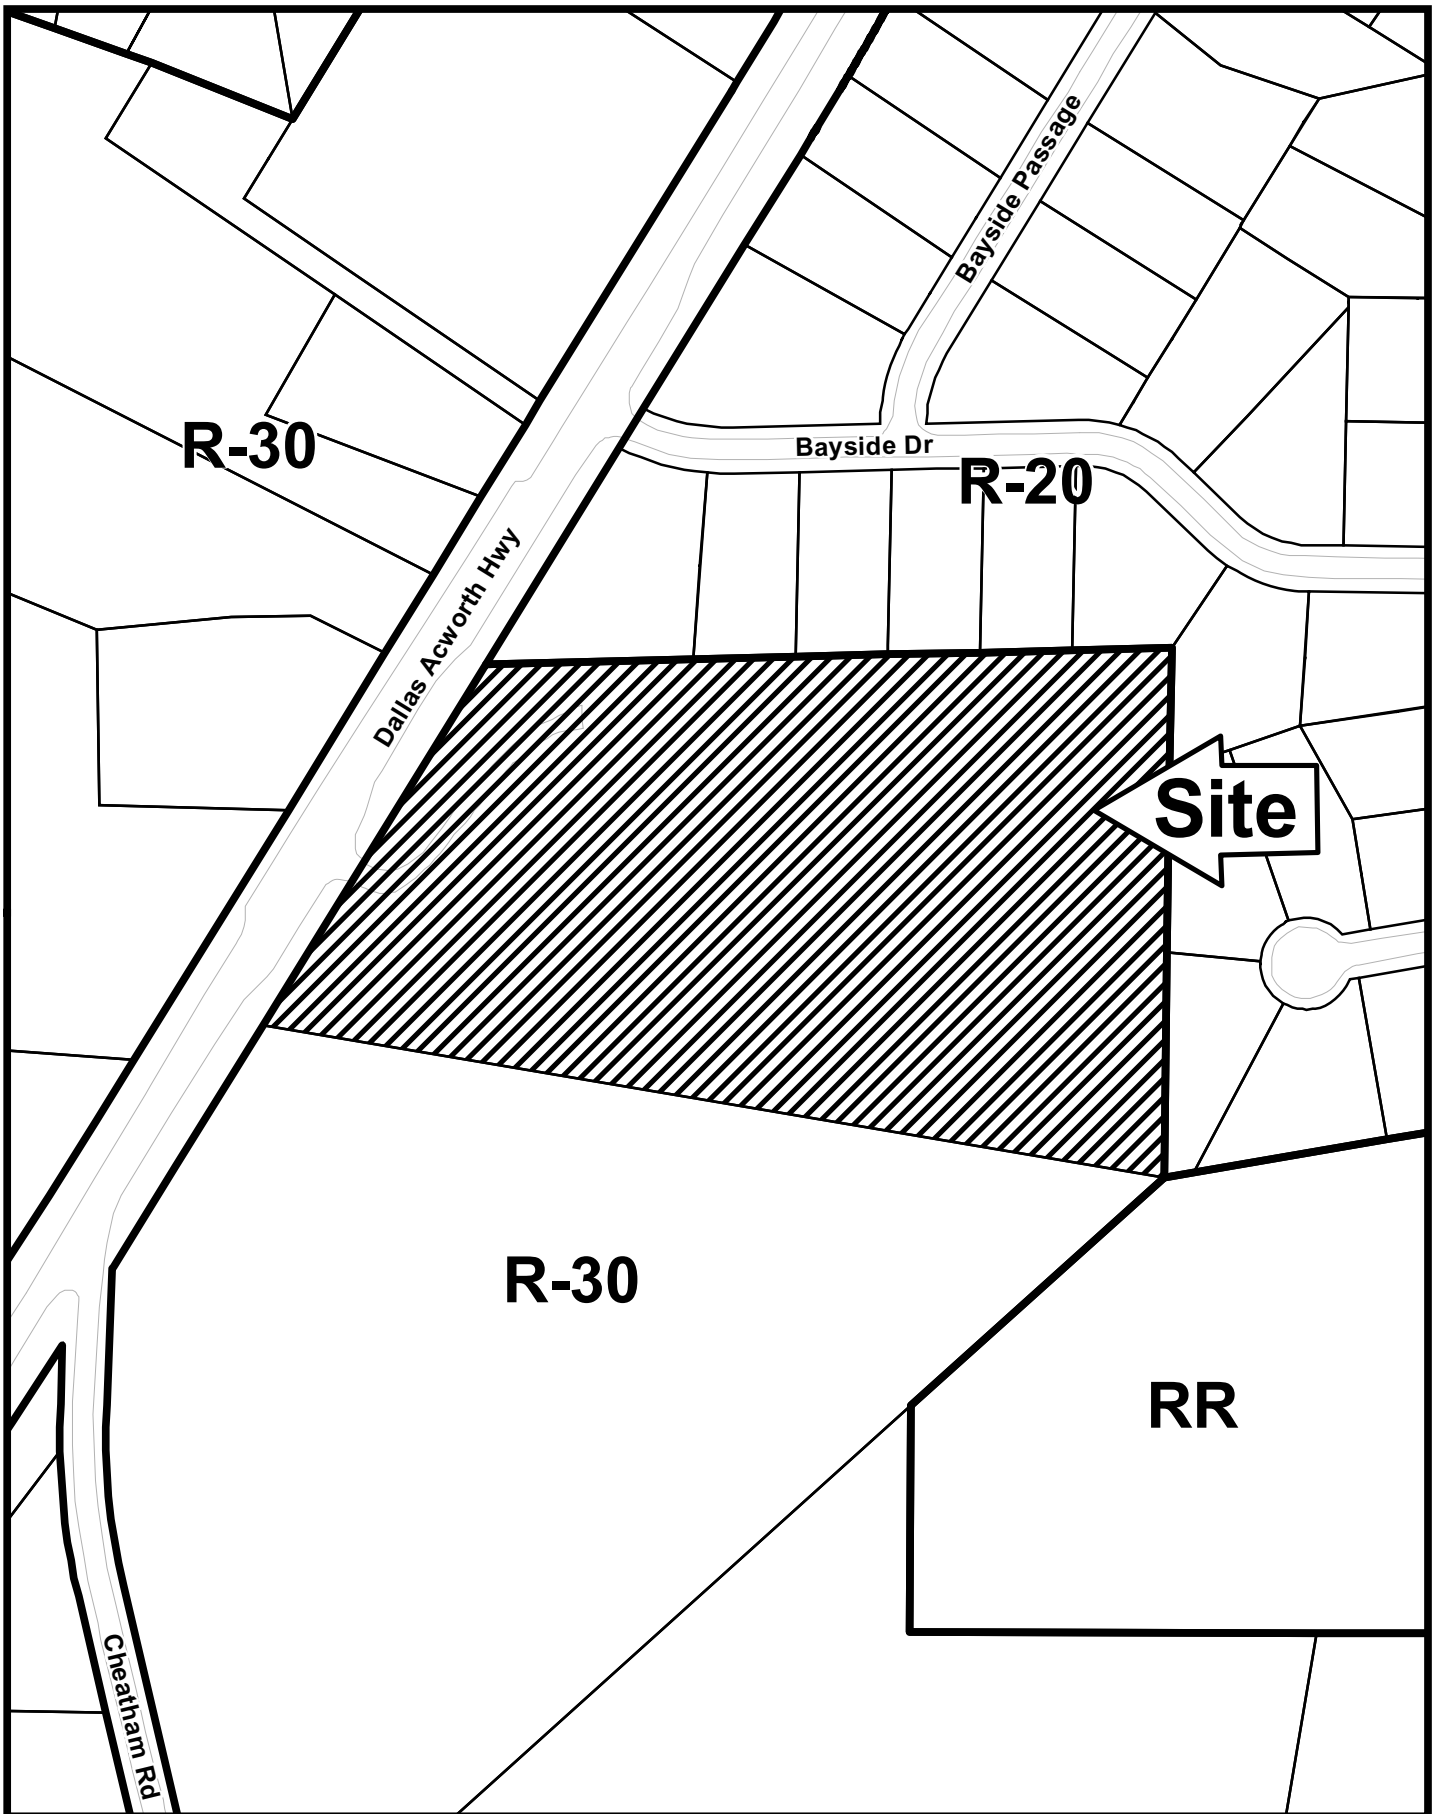

**TRAFFIC:** Recommend GDOT permits for all work that encroaches upon the State right-of-way.  
**DEVELOPMENT & INSPECTIONS:** This should only be a temporary situation. Tree ordinance requirements cannot be met in a gravel parking lot. A 2 – 3 year postponement of those requirements is acceptable to arborist staff as long as the necessary tree planting peninsulas and islands are installed along with the paving and curbing at the end of that period.  
**STORMWATER MANAGEMENT:** No objection to waiving paved parking requirement for a limited period of time. However, the stormwater management facilities must be designed to account for all proposed pavement as impervious area and all infrastructure installed and inspected prior to issuance of a certificate of occupancy.  
**HISTORIC PRESERVATION:** After examining Civil War trench maps, Cobb County historic property surveys, county maps, and various other resources, staff has no comments regarding the impact or treatment of historic and/or archaeological resources.  
**CEMETERY PRESERVATION:** No comment.  
**WATER:** No conflict.  
**SEWER:** No conflict. Property served by septic system. Sewer not available.

The Cobb County Zoning Ordinance Section 134-94 states that the Cobb County Board of Zoning Appeals must determine that applying the terms of the Zoning Ordinance without the variance would create an unnecessary hardship. Please state what hardship would be created by following the normal terms of the ordinance.

We would like to waive our requirement for paving our driveway and our parking space due to our financial situation. We are asking for 2 to 3 years.

List type of variance requested: Waive requirement for paved driveway and parking area for years.
