COMMENTS

TRAFFIC: This request will not have an adverse impact on traffic.

DEVELOPMENT & INSPECTIONS: On 5/25/10, an encroachment was noted by the inspector of a covered porch and a Hold was placed on the permit. Permit will need to be revised if variance is approved. If this variance request is approved, a plat revision must be recorded prior to the issuance of the certificate of occupancy showing all improvements and/or new setback limits. The plat must show a standard Cobb County plat revision note that states that the new lot plat supersedes the most recently recorded subdivision plat and shows the variance case number and date of approval. The plat must be submitted to the Site Plan Review Section, Community Development Agency for review and approval prior to recording. Call 770-528-2147.

STORMWATER MANAGEMENT: The builder of this lot has purposefully built this house to the maximum extent of the building line with no regard for impervious coverage limitations. The current impervious coverage is 9,805 square feet (49%). This is more than 2,800 square feet over the 35% maximum allowed under the R-20 code. Even if all 2,645 square feet of driveway were converted to pervious pavement, the credit allowed by the County Code would only reduce the coverage percentage to 43.7%, which is still significantly more than the allowable.

HISTORIC PRESERVATION: After examining Civil War trench maps, Cobb County historic property surveys, county maps, and various other resources, staff has no comments regarding the impact or treatment of historic and/or archaeological resources.

CEMETERY PRESERVATION: There is no significant impact on the cemetery site listed in the Cobb County Cemetery Preservation Commission's Inventory Listing which is located in this, or adjacent land lot.

WATER: No conflict.

SEWER: No conflict.
