The applicant is requesting a Land Use Permit to be allowed to have 5 vehicles at his property. Resulting from a citizen complaint, the applicant had been notified by the Code Enforcement Division that the number of personal vehicles parked on the property exceeds the 3 allowed per Sec. 134-198 (3) *Permitted Uses* “No more than one vehicle per 390 square feet of living building square footage...” The vehicles belong to the applicant and other family members who live at the property.

STAFF RECOMMENDATIONS

LUP-4 William D. Rawls

The applicant's request is located within a platted subdivision and in an area designated as Low Density Residential on the *Cobb County Comprehensive Plan*. While the applicant has lived at the property for the past four decades, he currently shares his home with his daughter and two other people. The Code Enforcement Division, responding to a citizen complaint, notified the applicant that the number of vehicles parked on the property exceeded the number allowed by the *Cobb County Code*. Code Enforcement also noted violations related to outside storage and non compliant vehicles. If allowed to continue, the use could intensify over time and possibly encourage more requests of a similar nature in this single-family residential area. Bearing in mind that this case began as a result of neighbors' complaints and that the result is contradictory to the *Cobb County Code*, staff recommends **DENIAL**.

The recommendations made by the Planning and Zoning Staff are only the opinions of the Planning and Zoning Staff and are by no means the final decision. The Cobb County Board of Commissioners makes the final decisions on all Rezoning and Land Use Permits at an advertised public hearing.
