Dear John:

On behalf of the Applicant and Property Owners in the above-referenced Application for Rezoning, please allow this correspondence to serve as a supplement to the letter of agreeable stipulations and conditions dated and filed February 1, 2006, which, if the Application for Rezoning is approved, as submitted, shall become part of the grant of the requested zoning and shall be binding upon the Subject Property. The additional, revised stipulation is as follows:

(1) Paragraph 25, located on page 6 of the February 1, 2006, letter, shall be deleted in its entirety and the following inserted in lieu thereof:

“(25) All lots and homes located along the most easterly boundary of the Subject Property immediately adjacent to Broadlands Subdivision shall be graded so that the fronts of the lots and the homes up to the front roof peak will all drain to the street. Applicant agrees to install a swale or a berm on the rear of proposed lots 108, 109, and 112 to divert water flow from the rear of these lots into the stormwater management area located southerly of said lots. This installation shall occur prior to any grading for residences to be constructed on said lots.”

As previously stated, we believe the requested zoning, specific to the Zoning Plat, the stipulations set forth in our letter of February 1, 2006, and the additional, revised stipulation contained herein, is an appropriate use of the Subject Property while taking into consideration the changing conditions of the area and the properties and owners thereof surrounding the proposed development. The proposed residential community shall be of the highest quality, shall be compatible with surrounding neighborhoods, and shall be an enhancement to the Subject Property and the community as a whole. Thank you for your consideration in this request.

With kindest regards, I remain

Very truly yours,

MOORE INGRAM JOHNSON & STEELE, LLP
