Dear Dana:

Pursuant to the discussion with staff during the Concept Review Meeting on June 16, 2005, enclosed are the Preliminary Layout and Grading Plans, last revised June 21, 2005, with respect to the above-referenced Application for Open Space Community. These Plans supersede those initially submitted with the subject Application on or about June 6, 2005, as well as any other subsequent plans. We, therefore, respectfully request the revised Plans submitted herewith be taken into consideration with the Application from this date forward.

We are further submitting a revised Narrative Analysis for the subject property prepared by DGM Land Planning Consultants, Inc. with respect to the proposed development. The revised analysis is based on the revised Preliminary Layout and Grading Plans submitted herewith.

Additionally, the homes to be constructed within the proposed OSC community will be a minimum of 3,000 square feet, ranging upwards

SENT TO: _____

Narrative Analysis for Haymore Preserve

Dear Mr. Tuller,

On behalf of Douglas and Patricia Haymore, we are pleased to submit our OSC site plan for Haymore Preserve located in East Cobb County near the intersection of Sewell Mill Road and Murdock Road. This plan is being submitted as a 19.65 AC proposal from the existing R-20 to R-20 OSC. Haymore Contractors Inc, is planning a community of single family homes with lot widths ranging from 70' - 95' wide.

The 19.65 acres consists of gently sloping topography with the centerline of Piney Grove Creek acting as the majority of the western border of the property. There is one other small creek which starts as a spring near the south eastern portion of the property and flows south-west and into Piney Grove Creek near the southern boundary of the property. This creek will be buffered and is set aside as part of the required open space. A large portion of the property is in floodplain and will also be put into open space to be preserved. Vegetative cover on the site consists of mixed hardwood and deciduous tree cover.

Our open space requirements have been met by providing 1.96 AC of undeveloped preserve in addition to the 9.03 AC in floodplain which provide a gracious buffer zone along Piney Grove Creek. This open space, some of which is an existing play field, will provide opportunities for walking trails and passive recreation. The open space wraps around the entire development's western border which will provide easy access by all the residents of the neighborhood. The eastern border of the property is made up of single-family R-20 lots that are part of the Old Mill Subdivision. Proposed lots that abut these existing lots will have a minimum width of 95'.

General site data for the project is as follows:

Total Site Area: 19.65 AC

Required Open Space: 7.56 AC

Total Area in Open Space: 10.99 AC (56% of total site area)

Required Open Space Out of Floodplain: 1.89 AC

Total Open Space shown Out of Floodplain: 1.96 AC

Land in Open Space will be owned by a mandatory home owner's association.

Minimum Lot Size: 8,000 SF

Average Lot Size: 16,240 SF±

Minimum Lot Width: 70' (Lots 1-7 Minimum 95' Width)

Building Setbacks: Front: 20', Side: 5', Rear: 25'

In summary we feel that this development will indeed meet the objectives of the OSC overlay zoning. The plan provides 10.99 acres of passive open space, all of which is contiguous (with the only exception being pocket parks at the entrance of the development). Haymore Preserve will be an asset to the East Cobb area and we look forward to working with you and the Cobb County Planning Division on this significant project.

Kind Regards,

Dear Dana:

On behalf of the Applicants and Property Owners for the above-referenced Application for Open Space Community, please allow this correspondence to serve as a supplement to previously submitted stipulations for the proposed residential development, which if the Application is approved, as submitted, shall become part of the grant of the requested open space community and shall be binding upon the Subject Property. The additional stipulations are as follows:

- (1) There will be an undisturbed buffer twenty-five (25) feet in width along the rear of proposed lot nos. 1 through 8, inclusive, as shown and reflected on the referenced Preliminary Plan; excepting that individual

homeowners may fence and maintain the buffer area but shall not be allowed to place any structures within said buffer area.

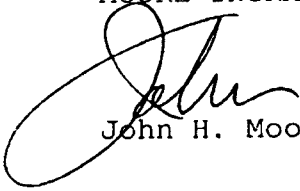

- (2) Applicant agrees to provide to prospective homebuyers information related to protection of streams and stream buffers within the Property and the open space area similar to the Cobb County brochure entitled "Protecting and Maintaining Small Streams and Open Channels - Guidelines for the Residential Property Owner."
- (3) All lots within the proposed development shall have a minimum front setback of fifteen (15) feet.

We believe the requested open space community, pursuant to the revised plans and the supplemental stipulations set forth herein, is an appropriate use of the Subject Property while taking into consideration the surrounding neighborhoods. The proposed residential community shall be of the highest quality, shall be compatible with surrounding developments, and shall be an enhancement to the Subject Property and the East Cobb community.
