The Cobb County Zoning Ordinance Section 134-94 states that the Cobb County Board of Zoning Appeals must determine that applying the terms of the Zoning Ordinance without the variance would create an unnecessary hardship. Please state what hardship would be created by following the normal terms of the ordinance.

Due to factors beyond my control, this house was built too close to the front street to allow a porch. There is a natural body of water + a storm drain easement which constricts the usable space. The lack of a porch means I and all guests and family must stand in the rain/snow/etc when entering. Also, the sun bakes + destroys the finish on the unshaded porch, causing maintenance expense. I am on a fixed income and this is a hardship.

List type of variance requested: Change front set back from 35 to 30 feet
