COMMENTS

TRAFFIC: This request will not have an adverse impact on the transportation network.

DEVELOPMENT & INSPECTIONS: No comment.

SITE PLAN REVIEW: If this variance request is approved, a subdivision plat revision must be recorded prior to the issuance of the certificate of occupancy showing all improvements on the lot and referencing the variance case in the standard plat revision note. The surveyor must submit the plat to the Site Plan Review Section, Community Development Agency for review and approval prior to recording. Call 770-528-2147.

STORMWATER MANAGEMENT: This parcel is located within the ARC Chattahoochee River Corridor and is therefore subject to the provisions of the Metropolitan River Protection Act. Although the County's R-30 Zoning Category allows up to 35% impervious coverage, the ARC review for the Brandy Station Subdivision limits this lot to 16.2%. It appears that the existing lot is already at this limit.

HISTORIC PRESERVATION: After examining Civil War trench maps, Cobb County historic property surveys, county maps, and various other resources, staff has no comments regarding the impact or treatment of historic and/or archaeological resources.

DESIGN GUIDELINES: No comment.

CEMETERY PRESERVATION: No comment.

WATER: No conflict.

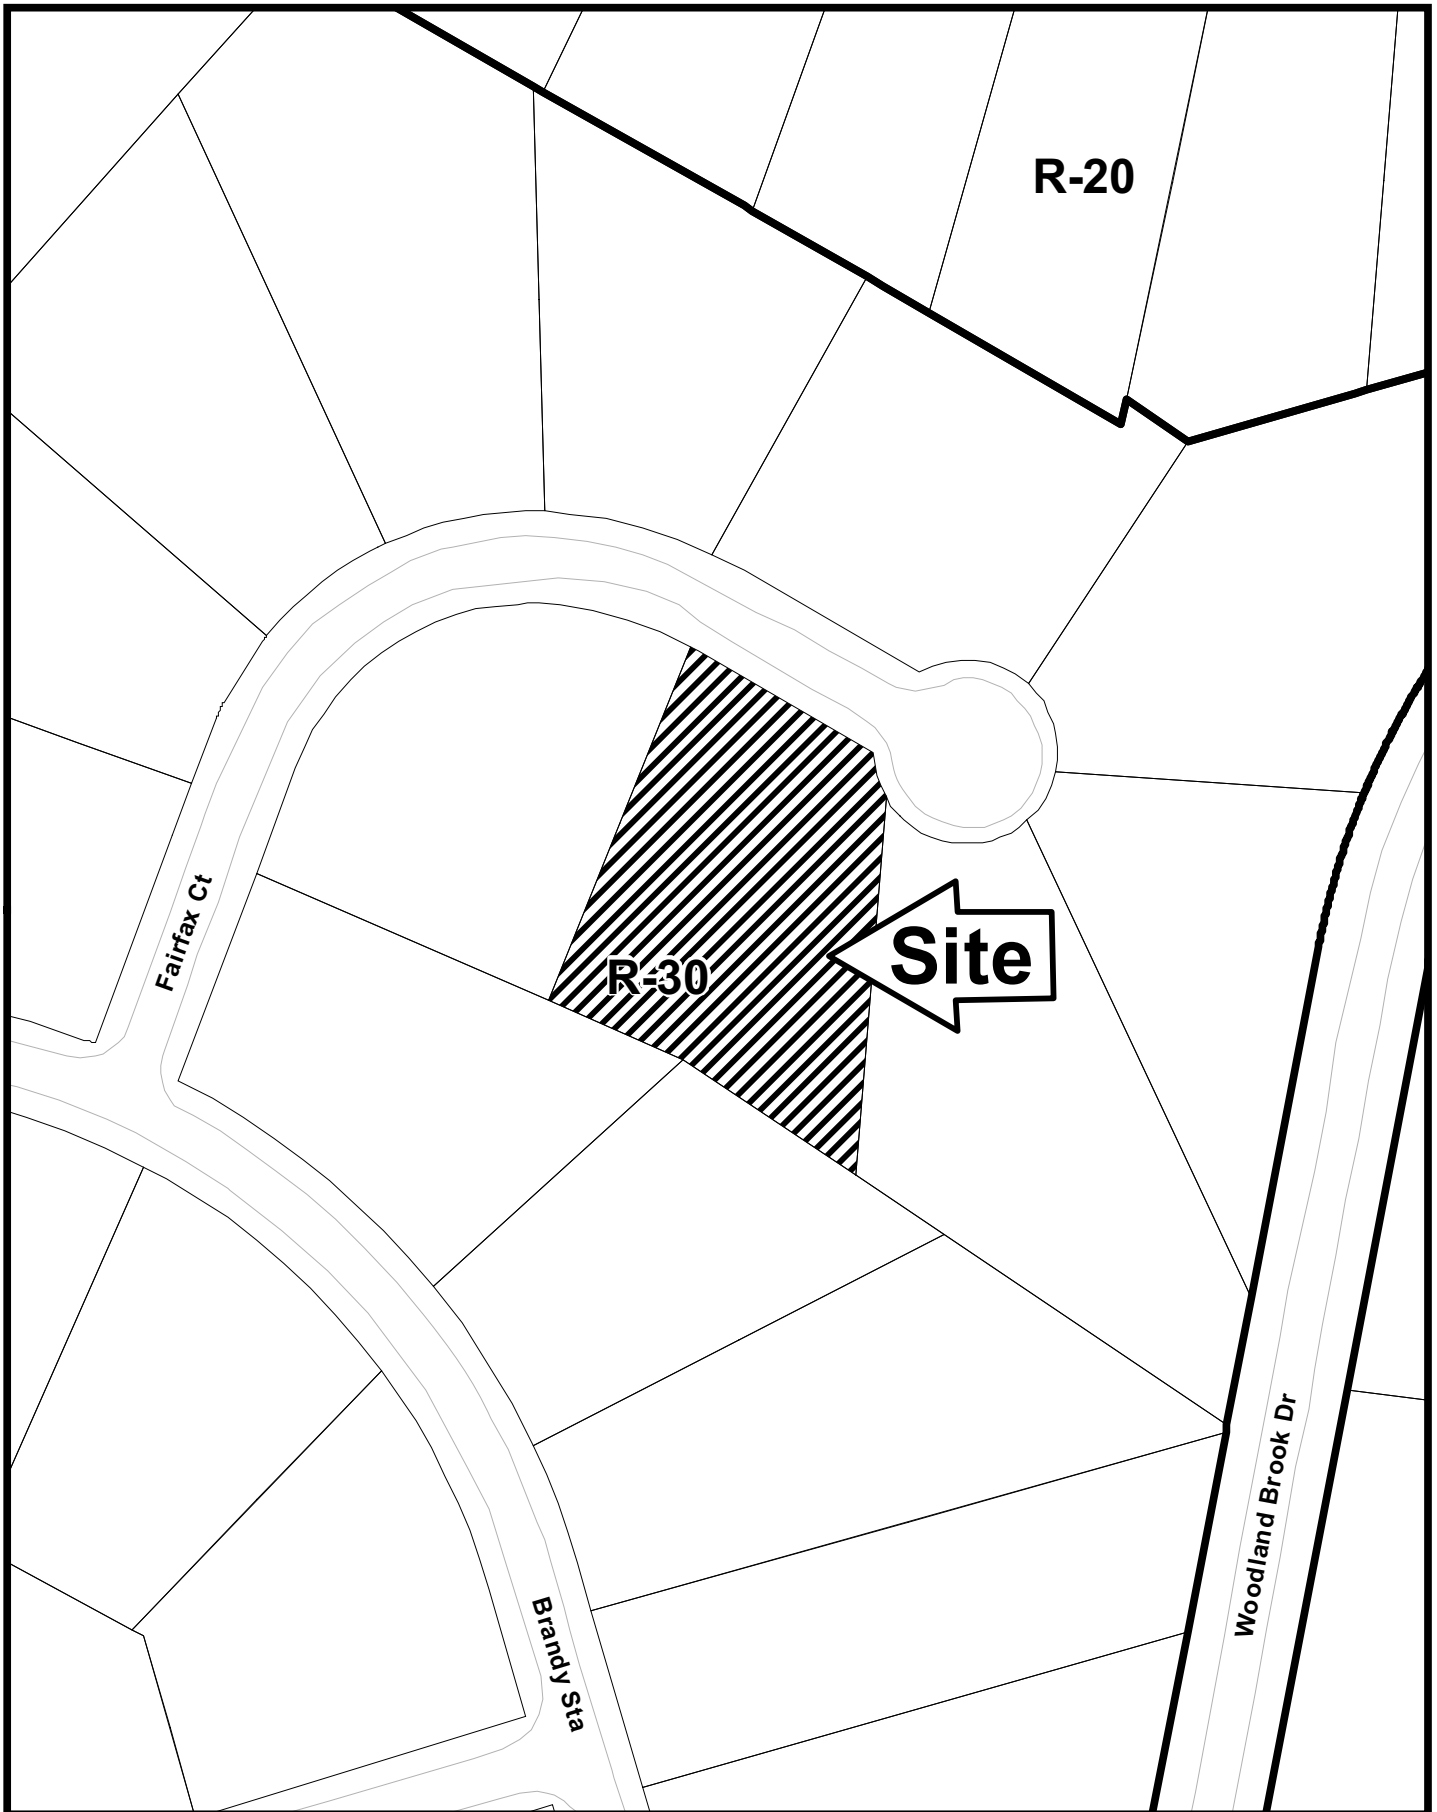

SEWER: No conflict.

The Cobb County Zoning Ordinance Section 134-94 states that the Cobb County Board of Zoning Appeals must determine that applying the terms of the Zoning Ordinance without the variance would create an unnecessary hardship. Please state what hardship would be created by following the normal terms of the ordinance (If applying for Backyard Chickens pursuant to Sec. 134-94(4), then leave this part blank).

There is a pipeline easement running all the way across the property making it impossible to locate the proposed structure in any way that wouldn't require a variance

List type of variance requested:
Variance from 100 Ft setback to 30.5 feet + 22.1 feet
