State specifically the need or reason(s) for Other Business: Property was rezoned to OI/NS in 1985. BOC approved construction of preschool in Other Business in August 1990. Request BOC permission is to now build a 2500 sq ft addition to the existing preschool and raze building at 2475 E. Piedmont Road to make room for more parking and playground space. New addition and existing building will maintain orginal usage and all stipulations when property was rezoned so zoning change is not requested.

(30,000 sq. ft.)

Parking Spaces Required 202

Parking Spaces Provided 256

Agreeable Conditions:

Rezone subject to site plan, as submitted (which indicates the final lay out of the shopping center site which was rezoned in July of this year).

Existing barn on site to be remodeled and used as a restaurant.

Setbacks along First Drive to be left natural and relandscaped when development of the office begin. Landscape plan to be approved by the staff prior to issuance of any permits.

No access to First Drive for any non-residential use.

Office buildings to be two and three story traditional design.

Office condominiums to be between 4,000 and 6,000 sq. ft. each.

Area to the rear of the retention pond, along First Drive to be left natural.

Additional Comments:

Approximately 3.91 acres requesting neighborhood shopping.

Approximately 5.95 acres requesting O&I.

All existing single family houses on the site to be removed, with the exception of the Spruce residents, which is part of this application, but will remain on the site at this time.

TRAFFIC COMMENTS:

	Average Daily Trips	Classification	Minimum Right-of-Requirements
<u>Piedmont Road</u>	<u>5,983</u>	<u>arterial</u>	<u>100'</u>
<u>First Drive</u>	<u>none</u>	<u>local</u>	<u>50'</u>

Additional Comments: The D.O.T. has had several meetings with the applicants of this proposed development over the last several months. The applicant clearly understands what will be required by the D.O.T. if this proposed rezoning is approved. The D.O.T. has suggested to applicant all proposed access points be channelized 100' into the site, and applicant has agreed to do so. The applicant also understands the conditions that will be required and must be met before signage will be considered for the proposed signalized access to Piedmont Road. If the residential area adjacent to First Drive changes to a more compatible land use with what is proposed on site, the applicant understands that any future plan to access First Drive would constitute a requirement to improve First Drive along the entire frontage of this property. The southern most access point, as shown on this plan, has been revised to a right-in/right-out driveway design. The applicant has presented to the D.O.T. an acceptable arrangement for additional widening of Piedmont Road that has been approved by D.O.T. Applicant understands that the required road improvements that have been presented, and agreed to by the D.O.T., will not in any way preclude a median design in the future on this frontage on Piedmont Road.

Staff Recommendations: The D.O.T. considers that this proposed development will have a significant impact to traffic on Piedmont Road; however, the plan that has been worked out, and the agreements that have been made, are considered to be, by the D.O.T., the best arrangement with the least possible impact on existing road system. The D.O.T. is concerned that this type of development should be retained at some point on Piedmont Road and not allowed to continue in a southward direction towards the future intersection with Roswell Road.

Following review of public hearing and documentation, this plan is exhibited as the plan of a parking area for the proposed application # 331 by 1015555 (cons. Hall cancelled).

Deputy County
Clerk

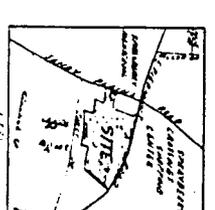

1. The proposed parking area is located on the east side of the building, adjacent to Sandy Plains Road. The area is bounded by Sandy Plains Road to the north, East Pennington Road to the east, and First Drive to the south. The total area of the parking area is 12,733 acres, zoned MS. The plan shows the layout of the parking spaces, including the location of the building, the entrance to the parking area, and the location of the roads. The plan also shows the location of the proposed parking area in relation to the surrounding roads and the building. The plan is submitted for the purpose of obtaining a permit for the proposed parking area.
