## STAFF RECOMMENDATIONS

### **Z-101 PROVINCE HOMES, LLC**

- A. It is Staff's opinion that the applicant's rezoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby properties. Other properties in the area include single-family houses on larger lots, single-family subdivision, and schools.
- B. It is Staff's opinion that the applicant's rezoning proposal will not have an adverse affect on the usability of adjacent or nearby property. The area is made of single-family subdivisions zoned R-30, R-20, R-15 and PRD. The applicant's proposal has a density that is compatible with adjacent properties and 44.5% of the property will be open space.
- C. It is Staff's opinion that the applicant's rezoning proposal will not result in a use which would cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools. This opinion can be supported by the departmental comments contained in this analysis.
- D. It is Staff's opinion that the applicant's rezoning proposal is in conformity with the policy and intent of the *Cobb County Comprehensive Plan*, which delineates this property as being in the Very Low Density Residential (VLDR) land use category, having densities that range from 0-2 units per acre. The proposed development has a density of 1.33 units per acre. Other zonings and densities in this area include: Laurel Place (zoned R-30 at 0.66 units per acre); Burnt Hickory Township (zoned R-30 at 0.93 units per acre); Carriage Gates (zoned R-30 at 1.11 units per acre); and Burnt Hickory Registry (zoned PRD at 1.32 units per acre).
- E. It is Staff's opinion that there are existing and changing conditions affecting the use and development of the property which give supporting grounds for approving the applicant's rezoning proposal. The proposal is consistent with single-family uses in the area and is consistent with the future land use map. The proposal will set aside 44.5% of the property as open space.

Based on the above analysis, Staff recommends **APPROVAL** subject to the following conditions:

1. Site plan received by the Zoning Division on January 25, 2017, with the District Commissioner approving minor modifications;
2. Fire Department comments and recommendations;
3. Water and Sewer Division comments and recommendations;
4. Stormwater Management Division comments and recommendations;
5. Department of Transportation comments and recommendations;
6. Cobb County Cemetery Preservation Commission comments and recommendations; and
7. Planning Division comments and recommendations.

**The recommendations made by the Planning and Zoning Staff are only the opinions of the Planning and Zoning Staff and are by no means the final decision. The Cobb County Board of Commissioners makes the final decisions on all Rezoning and Land Use Permits at an advertised public hearing.**
