COBB COUNTY ZONING DIVISION

On September 20, 2005, the Cobb County Board of Commissioners approved the rezoning of two tracts of property located within the Cobb Parkway, Cumberland Boulevard, and Riverwood Parkway area. While the rezonings were separate, the overall development of the properties would be known as the "Riverwood Mixed-Use Project" (hereinafter collectively the "Property" or the "Subject Property"). The lower half of the Property was rezoned under Application No. Z-61 (2005) and encompassed approximately 7.84 acres located at the intersection of Cobb Parkway and Cumberland Boulevard and was rezoned to the Urban Condominium ("UC") and Community Retail Commercial ("CRC") zoning categories. The upper half of the Property was rezoned under Application No. Z-62 (2005) and encompassed approximately 5.726 acres located on the southerly side of Riverwood Parkway, and the easterly side of Cumberland Boulevard and was rezoned to the Urban Condominium ("UC"), Community Retail Commercial ("CRC"), and Office High-Rise ("OHR") zoning categories. Both tracts were for mixed-use developments—each having components of residential, retail, and commercial. Each rezoning approval was site plan specific and was subject to the conditions set forth in the official minutes, as well as the letters of agreeable stipulations and conditions dated September 16, 2005, and filed September 20, 2005 (Z-61) and dated September 16, 2005, and September 19, 2005 (Z-62), and made a part of the final zoning approval and minutes. Each Application has had numerous amendments to the Master Site Plan and certain stipulations; as more particularly set forth above within this Application for "Other Business." Copies of the last amended Master Site Plan for each Application are attached hereto as Exhibit "1" (as to Z-61 (2005)) and Exhibit "2" (as to Z-62 (2005)) and incorporated herein by reference. Additionally, copies of the final, official minutes, including referenced attachments, for the initial rezoning approval of each Application; as well as all subsequent amendments for each Application are attached and made a part of this overall Application for "Other Business."

Seven Oaks Company, LLC, Applicant in this Application for "Other Business" (hereinafter "Applicant"), is the developer as to the proposed Parcel "G," located in the lower half of the Property (hereinafter "Parcel 'G' Property") (rezoned in Z-61), and presents this request for site plan and stipulation amendment which, if approved as submitted herein, shall be an amendment to the overall Master Site Plan Amendment as to both Z-61 (2005) and Z-62 (2005) approved by the Board of Commissioners on June 12, 2012, and September 18, 2007, respectively, as well as any applicable stipulations specific to the amendment of the Master Site Plan, and shall become part of the approved rezoning as to the Subject Property. The following are the amendments requested:

- (1) Applicant submits herewith the Master Site Plan Amendment dated June 10, 2013, prepared for Applicant by Dougerakis Consulting Engineers, Inc. which depicts the revisions for development of the Subject Property, and more specifically the Parcel "G" Property (rezoned in Z-61); as well as the parcel denoted as Parcel "B" (rezoned in Z-62) (hereinafter referred to as the "Parcel 'B' Property"). This Master Site Plan Amendment, if approved, as presented herein, shall become the revised Master Site Plan for the overall Riverwood Mixed-Use Project. Attached to this Exhibit "B" is the proposed Master Site Plan Amendment noted as Exhibit "3" for ease of reference.

AMENDMENTS RELATING TO PARCEL "G" PARCEL

- (2) Parcel "G" Property shall be developed for a maximum two-story commercial office building, having a maximum square footage of 7,500 square feet.

AMENDMENTS RELATING TO PARCEL "B" PARCEL

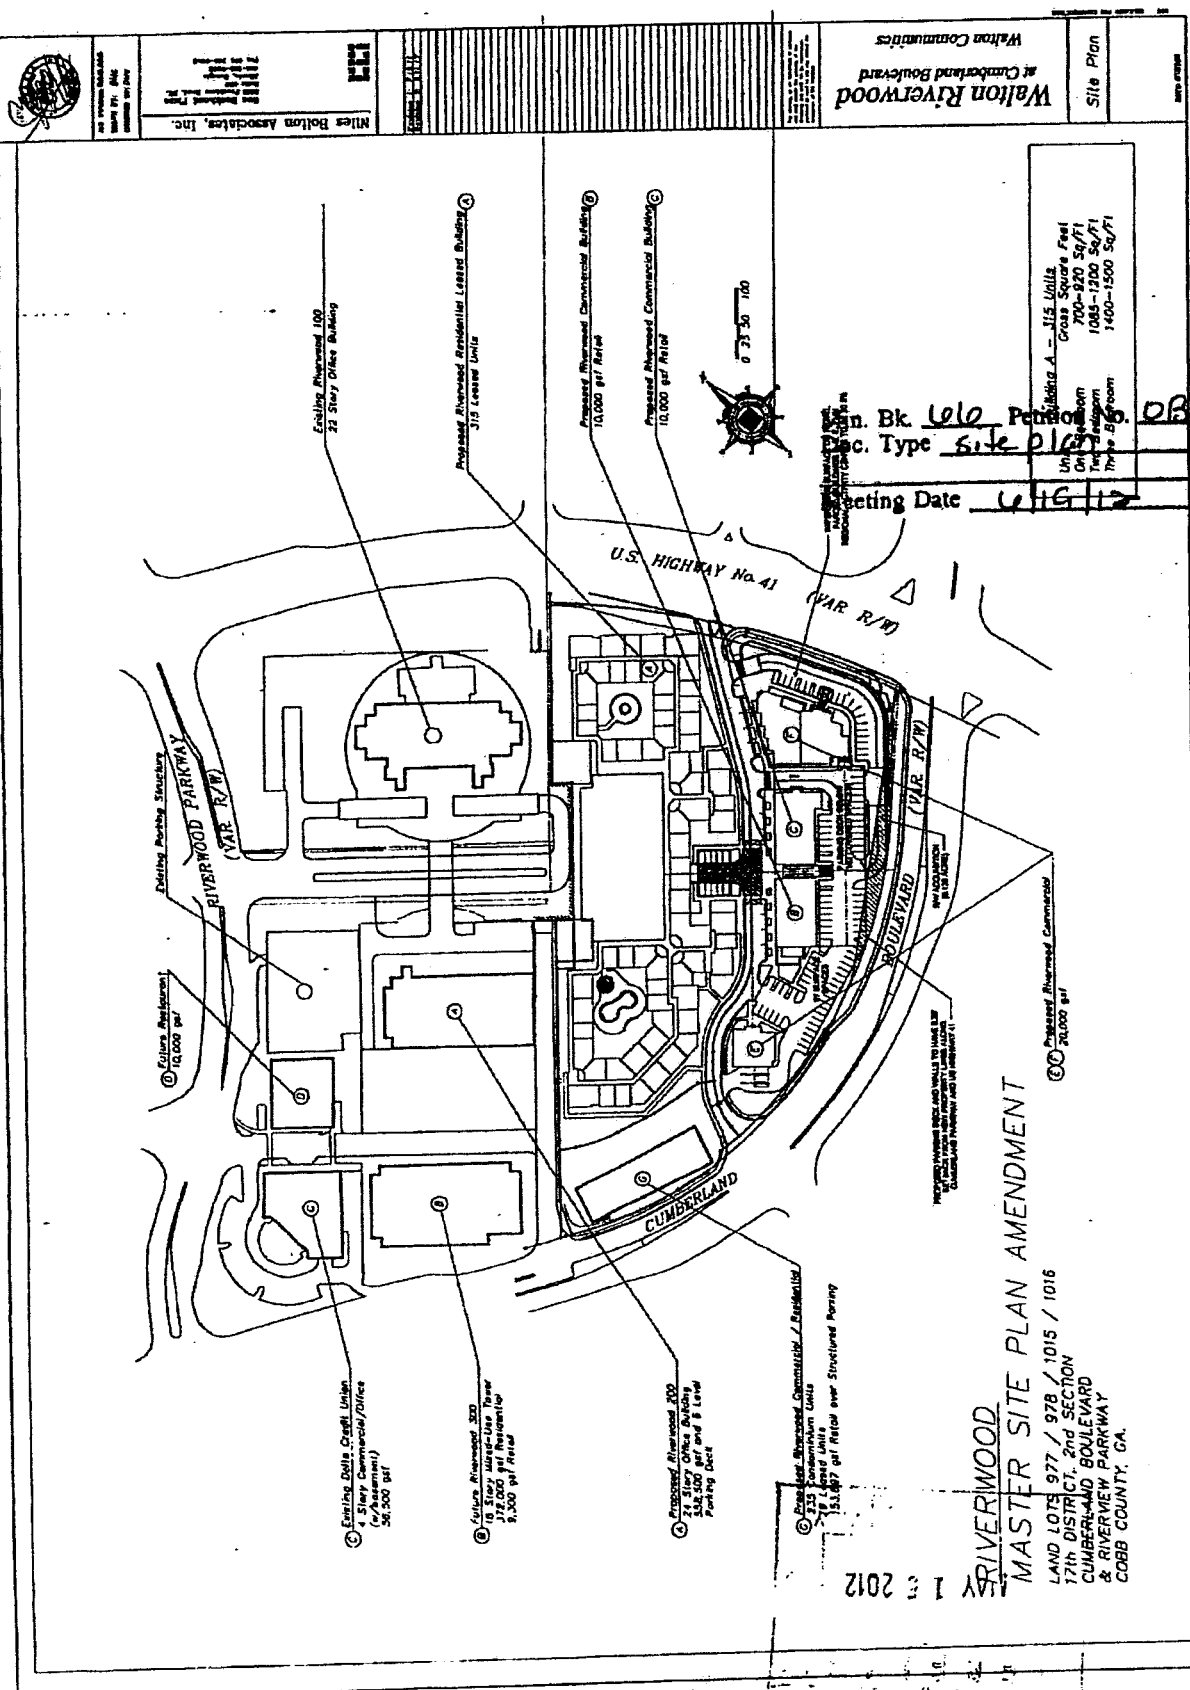

- (3) The remaining commercial and the total residential square footage previously approved for the Parcel "G" Property shall be transferred and applied to development of the Parcel "B" Property, to be known as "Riverwood 300"; and, therefore Applicant seeks to amend the Parcel "B" Property as follows:
 - (a) Development for the proposed Riverwood 300 (Parcel "B") shall be a twenty-five (25) story mixed-use tower (previously approved for an eighteen (18) story mixed-use tower);
 - (b) Increase in the residential square footage from the previously approved 372,000 gross square feet to 607,000 gross square feet (transfer of 235,000 gross square feet of residential condominium units from Parcel "G" Property to Parcel "B" Property for proposed Riverwood 300 tower);
 - (c) Addition of 19,000 gross square feet of residential rental (transfer from Parcel "G" Property to Parcel "B" Property for proposed Riverwood 300 tower);

- (d) Addition of approximately 146,397 gross square feet of retail space (transfer from Parcel "G" Property of 153,897 gross square feet, less 7,500 gross square feet remaining on Parcel "G" Property for proposed development) to the previously approved 9,300 gross square feet of retail space allowed for proposed Riverwood 300 tower), for a total of 155,497 gross square feet of retail area; and
- (e) The proposed Riverwood 300 tower shall be constructed over structured parking.

The amendments proposed in this Application for "Other Business" result in no additional commercial/retail or residential gross square footage being added to the overall Riverwood Mixed-Use Project.

The balance and remainder of the stipulations and conditions specifically enumerated in the official minutes, and attachments thereto, of the Board of Commissioners Zoning Hearing held on September 20, 2005 as to the initial rezoning of the Riverwood Mixed-Use Project (Z-61 and Z-62 (2005)); as well as the official minutes, and attachments thereto, of the Board of Commissioners Zoning Hearings relating to the subsequent amendments heard by the Board of Commissioners set forth more fully herein, which are not in conflict with the amendments sought in this Application for "Other Business," are unaltered by this request for Site Plan and Stipulation Amendment and shall remain in full force and effect.

The amendments requested and presented above in no way adversely impact or affect the remainder of the overall development. If the requested amendments are approved, as submitted, they shall become an additional part of the final rezoning and shall be binding upon the Riverwood Mixed-Use Project.

ATTN TO: John Pederson, Planner III
FROM: Charles Krautler, Director

Min. Bk. 37 Petition No. Z-61
Doc. Type ARC decision
relevant to DRI
Meeting Date 9/20/05

The Atlanta Regional Commission (ARC) has completed regional review of the following Development of Regional Impact (DRI). Below is the ARC finding. The Atlanta Regional Commission reviewed the DRI with regard to conflicts to regional plans, goals, and policies and impacts it might have on the activities, plans, goals, and policies of other local jurisdictions and state, federal, and other agencies. The finding does not address whether the DRI is or is not in the best interest of the local government.

Submitting Local Government: Cobb County
Name of Proposal: Regent Riverwood

Review Type: Development of Regional Impact **Date Opened:** 6/2/2005 **Date Closed:** 7/1/2005

FINDING: After reviewing the information submitted for the review, and the comments received from affected agencies, the Atlanta Regional Commission finding is that the DRI is in the best interest of the Region, and therefore, of the State.

Additional Comments: This development meets many of ARC's Regional Development Policies. The proposed development incorporates a mix of uses that includes residential, commercial and office uses. To encourage a more livable region, the Regional Development Policies encourage new development in central business districts, transportation corridors, activity centers, and town centers. The Policies also recommend mix use development, infill development, and redevelopment while providing for a variety of housing choices for individuals and families of diverse incomes and age groups. The proposed Regent Riverwood development promotes these policies through a mix use interconnected development in the Cumberland Galleria activity center. This project is located in the Cumberland Livable Center Initiative Study area. The vision of the Cumberland LCI study area is to create a more urban district that includes increased residential densities, greater integration of land uses, greater emphasis on mobility, and more active public spaces. The developer should review the Blueprint Cumberland Strategic Plan to ensure future transportation connections. There are proposed future transit stations in close proximity to the proposed development. It is encouraged that pedestrian, bike, and possible auto connections be implemented where possible. The developer should work with the Cumberland Community Improvement District and the Cumberland Transportation Network to integrate the proposed development into the overall strategic plan for the Cumberland Galleria area.

The notice of decision is based upon review of the applicant's DRI Review Package. The Review Package includes the site development plan dated May 19, 2005, prepared by Planners and Engineers Collaborative, titled "Riverwood A Mixed Use Development" (Referred to as the "Site Plan" or the "DRI Plan of Development") and the analysis prepared by A&R Engineering, Inc. dated May 27, 2005 and received by GRTA on May, 27, 2005.

Pursuant to Section 2-501 of the *Procedures and Principles for GRTA Development of Regional Impact Review*, the Applicant, the GRTA Land Development Committee and the local government have a right to appeal this decision within five (5) working days of the date on this letter by filing a Notice of Appeal with the GRTA Land Development Committee. A Notice of Appeal must specify the grounds for the appeal and present any argument or analysis in support of the appeal. For further information regarding the right to appeal, consult Part 5 of the *Procedures and Principles for GRTA Development of Regional Impact Review*, available from GRTA or on the Worldwide Web at <<http://www.grta.org/dri/home.htm>>. If GRTA staff receives an appeal, you will receive another notice from GRTA and the Land Development Committee will hear the appeal at its August 10, 2005 meeting.

Based on 10-23-02 traffic counting data taken by Cobb County DOT. (Cumberland Boulevard)
Based on 2003 traffic counting data taken by GDOT. (U.S. 41)

Cumberland Boulevard is classified as an Arterial and according to the available information, the existing right-of-way does meet the minimum requirements for this classification.

Cumberland Boulevard corridor is identified by Blueprint Cumberland as a streetscape project. Additionally, this road will serve as the corridor for the Silver Comet Trail Extension.

Convert the striped areas of the medians into a left turn lane on Cumberland Boulevard and Riverwood Parkway. Modify landscaped island along Cumberland Boulevard to extend left turn storage.

Create a left-thru and a right turn lane driveway along Riverwood Parkway across from the Wachovia building.

Meeting Date 9/20/05

The Atlanta Regional Commission (ARC) has completed regional review of the following Development of Regional Impact (DRI). Below is the ARC finding. The Atlanta Regional Commission reviewed the DRI with regard to conflicts to regional plans, goals, and policies and impacts it might have on the activities, plans, goals, and policies of other local jurisdictions and state, federal, and other agencies. The finding does not address whether the DRI is or is not in the best interest of the local government.

Submitting Local Government: Cobb County
Name of Proposal: Regent Riverwood

Review Type: Development of Regional Impact

Date Opened: 6/2/2005

Date Closed: 7/1/2005

FINDING: After reviewing the information submitted for the review, and the comments received from affected agencies, the Atlanta Regional Commission finding is that the DRI is in the best interest of the Region, and therefore, of the State.

Additional Comments: This development meets many of ARC's Regional Development Policies. The proposed development incorporates a mix of uses that includes residential, commercial and office uses. To encourage a more livable region, the Regional Development Policies encourage new development in central business districts, transportation corridors, activity centers, and town centers. The Policies also recommend mix use development, infill development, and redevelopment while providing for a variety of housing choices for individuals and families of diverse incomes and age groups. The proposed Regent Riverwood development promotes these policies through a mix use interconnected development in the Cumberland Galleria activity center. This project is located in the Cumberland Livable Center Initiative Study area. The vision of the Cumberland LCI study area is to create a more urban district that includes increased residential densities, greater integration of land uses, greater emphasis on mobility, and more active public spaces. The developer should review the Blueprint Cumberland Strategic Plan to ensure future transportation connections. There are proposed future transit stations in close proximity to the proposed development. It is encouraged that pedestrian, bike, and possible auto connections be implemented where possible. The developer should work with the Cumberland Community Improvement District and the Cumberland Transportation Network to integrate the proposed development into the overall strategic plan for the Cumberland Galleria area.

The following comments and recommendations are based on field investigation and office review of the subject rezoning case:

ROADWAY	AVERAGE DAILY TRIPS	CLASSIFICATION	MIN. R.O.W. REQUIREMENTS
Cumberland Blvd	19889	Arterial	100'
U.S. Hwy 41	24240	Arterial	100'
Riverwood Pkwy	NA	Major Collector	80'

Based on 10-23-02 traffic counting data taken by Cobb County DOT. (Cumberland Boulevard)
Based on 2003 traffic counting data taken by GDOT. (U.S. 41)

Cumberland Boulevard is classified as an Arterial and according to the available information, the existing right-of-way does meet the minimum requirements for this classification.

U.S. Highway 41 is classified as an Arterial and according to the available information, the existing right-of-way does meet the minimum requirements for this classification.

Riverwood Parkway is classified as a Major Collector and according to the available information, the existing right-of-way does meet the minimum requirements for this classification.

Currently these properties have a combined total of one curb cut along each major road. The developer is proposing one new curb cut along Cumberland Boulevard at a signalized intersection, one new curb cut along U.S. Highway 41 that the Department recommends as a right-in/right-out and two new curb cuts along Riverwood Parkway.

Modify striping along US 41 to accommodate the right-in/right-out driveway.

GDOT permits will be required for all work along US 41.

Delete right-in/right-out drive on Riverwood Parkway.

Provide 100% funding for the traffic signal upgrade at the proposed access on Cumberland Boulevard.

U.S. Highway 41 is identified as a long-range transportation improvement project.

Extend sidewalk, curb and gutter along the section of Riverwood Parkway that lacks it.

Inter-parcel access easements will be required for all properties that have common boundaries.

As necessitated by this development for egress from Cumberland Boulevard, U.S. Highway 41 and Riverwood Parkway, a minimum 150' deceleration lane will be required at each access point.

Cumberland Boulevard corridor is identified by Blueprint Cumberland as a streetscape project. Additionally, this road will serve as the corridor for the Silver Comet Trail Extension.

Convert the striped areas of the medians into a left turn lane on Cumberland Boulevard and Riverwood Parkway. Modify landscaped island along Cumberland Boulevard to extend left turn storage.

Create a left-thru and a right turn lane driveway along Riverwood Parkway across from the Wachovia building.

Construct a driveway to mirror the access drive to the Russell Office Suites on Cumberland Boulevard.

Applicant presents this request for site plan and stipulation amendment which, if approved as submitted herein, shall become part of the approved rezoning as to the Subject Property. The following are the amendments requested:

- (1) Applicant submits herewith the revised Site Plan depicting the development proposed by Applicant, as well as the adjacent development by TI Riverwood, LLC. The approval of the revised Site Plan shall be site plan specific as to the Subject Property only.

Z-62 (2005) heard by the Board of Commissioners at its Zoning Hearing held on September 20, 2005. Subsequently, on December 20, 2005, the Board of Commissioners approved a Site Plan and Stipulation Amendment for the Subject Property. As set forth in the official minutes of each meeting, certain stipulations and conditions were imposed upon the development of the Subject Property by the Board of Commissioners.

Seven Oaks Development, LLC, as the developer and current Applicant (hereinafter "Applicant") presents this request for site plan and stipulation amendment which, if approved as submitted herein, shall be an amendment to the Master Site Plan approved by the Board of Commissioners on September 20, 2005, as well as the amended Master Site Plan approved on December 20, 2005, and shall become part of the approved rezoning as to the Subject Property. The following are the amendments requested to the original zoning approval as well as the subsequent amendment:

- (1) Applicant submits herewith the Master Site Plan Amendment dated August 15, 2007, prepared for Applicant by Kimley-Horn and Associates, Inc. which depicts the development proposed by Applicant, as well as the proposed, revised development of property approved in Application for Rezoning No. Z-61 (2005).
