Size of Property 1.1 Acre Shape of Property _____ Topography of Property _____ Other _____

The Cobb County Zoning Ordinance Section 134-94 states that the Cobb County Board of Zoning Appeals must determine that applying the terms of the Zoning Ordinance without the variance would create an unnecessary hardship. Please state what hardship would be created by following the normal terms of the ordinance (If applying for Backyard Chickens pursuant to Sec.134-94(4), then leave this part blank).

The House is located close to the property line and the car port in question is 5' from property line, but if placed behind the house would cross the property. The gravel driveway in question is used by the sewer inspectors annually to get to the easement that runs behind the property. If a lawn was placed where the gravel is located it would be trampled by sewer bio cat.

List type of variance requested:

I wish to have the gravel driveway grandfathered in and the parking car port to remain as it was when the house was purchased.
