APPLICANT EAH Acquisitions LLC

Comments:

Developer will be responsible for connecting to the existing County water and sewer systems, installing and/or upgrading all outfalls and water mains, obtaining on and/or offsite easements, dedication of on and/or offsite water and sewer to Cobb County, as may be required. Rezoning does not guarantee water/sewer availability/capacity unless so stated in writing by the Cobb County Water System. Permit issuances subject to continued treatment plant compliance with EPD discharge requirements.

ADDITIONAL COMMENTS

APPLICANT: EAH Acquisitions, LLC

- 1. This site is located just north of the intersection of Johnson Ferry and Bishop's Lake Roads. Except for a very small area at the northeast and southeast corners, the entire site drains into and through the adjacent Wood Acres School site to the north. The existing conveyance through the school is not well-defined and will likely need to be improved to accommodate the increase runoff from the proposed development.
- 2. Downstream hydrograph routings will be required for the existing Wood Acres School detention pond as well as the culvert at Bishop's Green Drive at Plan Review to verify no adverse impact at these structures.
- 3. A 20-foot drainage easement will be required along the rear of lots 10-21 to direct site runoff to the proposed detention pond and to limit runoff bypass from the site.

APPLICANT: <u>EAH Acquisitions, L.L.C.</u> PETITION NO.: <u>Z-105</u>

PRESENT ZONING: R-30 PETITION FOR: RSL

TRANSPORTATION COMMENTS

The following comments and recommendations are based on field investigation and office review of the subject rezoning case:

ROADWAY	AVERAGE DAILY TRIPS	ROADWAY CLASSIFICATION	SPEED LIMIT	JURISDICTIONAL CONTROL	MIN. R.O.W. REQUIREMENTS
Johnson Ferry Road	39,300	Arterial	45 mph	Cobb County	100'
Bishop Lake Road	1379	Minor Collector	25 mph	Cobb County	60'

Based on [2009] traffic counting data taken by Cobb County DOT for Johnson Ferry Road. Based on [2013] traffic counting data taken by Cobb County DOT for Bishop Lake Road.

COMMENTS AND OBSERVATIONS

Johnson Ferry Road is classified as an arterial and according to the available information the existing right-of-way does not meet the minimum requirements for this classification.

Bishop Lake Road is classified as a minor collector and according to the available information the existing right-of-way does not meet the minimum requirements for this classification.

RECOMMENDATIONS

Recommend applicant be required to meet all Cobb County Development Standards and Ordinances related to project improvements.

Recommend applicant consider entering into a development agreement pursuant of O.C.G.A. 36-71-13 for dedication of the following system improvements to mitigate traffic concerns: a) donation of right-of-way on the east side of Johnson Ferry Road, a minimum of 50' from the roadway centerline.

Recommend applicant consider entering into a development agreement pursuant of O.C.G.A. 36-71-13 for dedication of the following system improvements to mitigate traffic concerns: a) donation of right-of-way on the north side of Bishop Lake Road, a minimum of 30' from the roadway centerline.

Recommend private streets be constructed to the Cobb County Standard Specifications.

Recommend a deceleration lane on Bishop Lake Road for the entrance with the length to be determined during plan review.

Recommend curb, gutter, and sidewalk along the Bishop Lake Road frontage and connect to the sidewalk on Johnson Ferry Road.

Recommend the proposed gate meet Cobb County Development Standards.

STAFF RECOMMENDATIONS

Z-105 EAH ACQUISITIONS, L.L.C.

- A. It is Staff's opinion that the applicant's rezoning proposal may not permit a use that is suitable in view of the use and development of adjacent and nearby properties. Other properties in this area are zoned and developed for single-family houses on individual lots.
- B. It is Staff's opinion that the applicant's rezoning proposal will not have an adverse affect on the usability of adjacent or nearby property. The proposed development has a higher density than other single-family residential subdivisions in this area.
- C. It is Staff's opinion that the applicant's rezoning proposal will not result in a use which would cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools. This opinion can be supported by the departmental comments contained in this analysis.
- D. It is Staff's opinion that the applicant's rezoning proposal is in conformity with the policy and intent of the *Cobb County Comprehensive Plan*, as far as being an allowed zoning category in the Low Density Residential (LDR) land use category. However, the proposed density of 4.88 units per acre is not compatible with some of the abutting and nearby single-family residential subdivisions. These subdivisions include: Bishop's Hollow (zoned R-20 at .33 units per acre); Oakhill Manor (zoned R-20 at approximately 1.62 units per acre); Easthampton Unit V (zoned PRD at 1.70 units per acre); Bishop's Green (zoned R-15 at 1.81 units per acre); and Hunter's Trace (zoned R-15 at 2.25 units per acre).
- E. It is Staff's opinion that there are existing and changing conditions affecting the use and development of the property which give supporting grounds for APPROVING the applicant's rezoning proposal, but at a density that is compatible with neighborhoods in the surrounding area. While the RSL nonsupportive district is allowed in the Low Density Residential (LDR) land use category, one of the requirements in that section of the ordinance is that development be compatible with existing development. While properties to the south are developed for church uses and the abutting property to the north has been developed for a school for many years, the area includes numerous single-family developments that are less intense than the proposed 4.88 units per acre.

Based on the above analysis, Staff recommends APPROVAL subject to the following conditions:

- Board of Commissioners to approve final site plan, with the District Commissioner approving minor modifications;
- Maximum density of 2.5 units per acre;
- Fire Department comments and recommendations;
- Water and Sewer Division comments and recommendations:
- Stormwater Management Division comments and recommendations;
- Department of Transportation comments and recommendations; and
- Owner/developer to enter into a Development Agreement pursuant to O.C.G.A. §36-71-13 for dedication of system improvements to mitigate traffic concerns.

The recommendations made by the Planning and Zoning Staff are only the opinions of the Planning and Zoning Staff and are by no means the final decision. The Cobb County Board of Commissioners makes the final decisions on all Rezoning and Land Use Permits at an advertised public hearing.
