Variance Application

4080 Hillwood Pt., Marietta, GA

Peter and Trine Wagner

Additional information:

1) Legal description of property:

All that tract or parcel of land lying and being in land Lot 1042, 16th district, 2nd Section, Cobb County, Georgia, being Lot 26, Block 1, Unit Nine, Indian Hills Country Club, as per plat recorded in Plat Book 55, Page 60, Cobb County Records, which plat is incorporated herein by reference and made a part hereof.

2) List type of variance requested:

An 80 feet long and 8 ft high privacy fence in the middle section of the property line between 4080 Hillwood Pt and 747 Hillwood Dr. The fence consist of 10 sections each 8 foot long and decorative posts each 4-6 inch higher than fence

3) Please state what hardship would be created by following the normal terms of the ordinance:

The need for the privacy fence and the need for having it at 8 ft high is driven by the way the 2 swimming pool areas in 747 Hillwood Drive and 4080 Hillwood Pt is located. The Wolcott's in 747 Hillwood Drive have been very concerned about the loss of privacy it created when all the trees on the neighbor lot were removed in the fall of 2015. With the size and location of the new house at 4080 Hillwood Drive, the deck and the pool deck there is very little privacy left for the Wolcott's who for many years have enjoyed complete privacy in their back yard due to the amount of trees and other vegetation that shielded the view from the neighbor lot.

At 8 ft high the fence restores quite a bit of the lost privacy for the Wolcott's. For the Wagner family on 4080 Hillwood Pt the 8 ft also protects privacy to a high degree. In the Wagner house we have 5 children living at home in the age 4-18 and 2 college students who is at home on and off. With a total of 7 children and the amount of traffic and noise it can create during the pool season the 8ft fence will work much better than a 6 ft fence.

For the younger Wagner family children there will be a trampoline located right next to the fence. Again, the 8 ft height will significantly decrease the amount of noise and visual disturbance from the kids on the trampoline compared to a 6 ft fence.

The Wolcott's have 2 very strong spotlights, one at the corner of the garage and one at the deck. Both spots are pointed directly at the Wagner house with very strong light. The 8 ft fence help

shield this light that otherwise will illuminate the whole lower floor from the side plus shine in the eyes wherever you might be around the pool.

Last, and just for reference, a quick tour around the Indian Hills neighborhood showed at least 5 fences on a few roads that were 8 feet tall on the side of the property. Addresses for reference include:
