Re: Application of Cotter Properties & Development, LLC to Rezone a 13.3± Acre Tract from R-30 to RA-5; Land Lots 813 & 814, 17<sup>th</sup> District, 2<sup>nd</sup> Section, Cobb County, Georgia (Z-24).

Dear John:

I represent Cotter Properties & Development, LLC in relation to the above-described zoning application. The application is scheduled to be heard by the Planning Commission on June 4, 2013 and thereafter by the Board of Commissioners on June 18, 2013. The applicant has engaged the surrounding community and adjacent property owners to revise the proposal to address specific concerns. Following is a list of stipulations that are a result of this dialogue. The applicant requests that the zoning be approved subject to the following stipulations. These stipulations supersede a previous letter dated May 30, 2013.

- 1) The zoning will be RA-5 for a 46 lot single-family detached subdivision as depicted in the revised site plan which yields a density of approximately 3.5 units per acre. The revised site plan is attached as Exhibit "A". The zoning is site plan specific.
- 2) The applicant will create open space between lots 12 and 13 to create a buffer for the neighborhood and specifically the property owner located at the intersection of Valley Vista Drive and Vista Way. The rear 25 feet of this open space will be deeded to the adjacent property owner subject to easement for utilities after the final platting of the subdivision. Upon transfer of this property, that portion of greenspace will delete to R-30 zoning to match the zoning of the lot it will be added to.
- 3) The single family homes will be architecturally similar to the attached photographs (Exhibit "B"). The homes will include a mixture of materials from brick, stone, shake

shingles, standing seam awnings and other architectural details as shown in the photographs. There shall be architectural elements on three sides and the rear architecture of homes that are visible from adjacent roadways will not be 100% board siding.

- 4) The homes will be a minimum of 2500 square feet of climate controlled space and have at a minimum a two car garage. The homes may range up to 4500 square feet with finished basements. All garages will be used for vehicle parking only.
- 5) The applicant will agree to a comprehensive landscaping and buffer plan that will include the following:
  - a. Lots 9, 10, 11 and 12 will have a 30 foot landscaped buffer that will be designed with input from the county arborist with an emphasis on providing an opaque visual barrier. All plantings must be selected from a list provided by the County Arborist.
  - b. The open space will have a 25 foot landscaped buffer planted adjacent to the 25 foot wide portion of the property that will be transferred to the adjacent property owner after the final plat is recorded.
  - c. The remaining lots on the western boundary of the subject property will have a 25 foot wide landscaped buffer that will be designed with input from the county arborist with an emphasis to create an opaque visual barrier at maturity. All landscaped and buffered areas may be penetrated for the purpose of utilities and stormwater control.
  - d. There shall be a stained 6 foot high shadow box fence along the southern and western boundary line similar to the picture attached as Exhibit "C."
  - e. To ensure the integrity and the maintenance of the fence and the buffer, the applicant will create covenants that will be managed by a homeowners association that will be responsible for the maintenance of the fence and the 25 to 30 foot landscaping buffer. The plat will specifically recognize the buffer and require that the plantings not be removed by the lot owners and that if plants and trees die

they must be replaced with similar species. The deeds shall also contain a notice to the purchaser that the buffer is to be maintained and replaced if damaged.

- f. The detention pond will be surrounded by a fence and will have landscaping to minimize the visibility of the detention area from view of property owners outside of the development.
  - g. The landscaping and fencing will be in place by April 2014.
- 6) The applicant agrees that the RA-5 zoning will revert to R-30 if an LDP is not obtained within 18 months without further action by Cobb County or the property owners.
  - 7) Contemporaneously with this zoning, the minimum lot size is 6,000 square feet.
  - 8) The applicant will comply with Stormwater Management Division comments. Specifically, the applicant will provide for stormwater management behind the homes at the bottom of the slope to channel the water to the detention pond and to limit bypass drainage.
  - 9) The development will have private streets. The applicant will comply with the DOT recommendations regarding the entrance on Spring Hill Parkway.
  - 10) During construction, the stub street known as Vista Way will only be used to move heavy equipment onto the property for the completion of the detention pond and the installation of erosion control measures. It will not be used as the primary access for workers, materials and equipment. No vehicles or construction equipment will be parked along Vista Way, Valley Vista Drive or Spring Hill Parkway. The main construction entrance will be off of Spring Hill Parkway.
  - 11) Street lights will be environmentally sensitive down cast lighting to minimize light pollution leaving the site. All electrical utilities will be underground.
  - 12) There shall be a mandatory homeowners association that will include architectural controls and maintenance of common property including the fencing and buffer landscaping. The HOA will also be responsible for maintenance of private streets and water, sewer, and stormwater systems.

- 13) The house that currently exists on the property may be used as a construction office, but if it is not so used, it will be boarded up within 30 days of the closing of the property and demolished within 60 days of the closing date. If a tenant is still in the house at closing the dates will be 30 and 60 days from the date the tenant moves out.
- 14) In order to address the Fire Department comments, the applicant will do the following:
- a) Each home will have at a minimum a two car garage. There will be a restrictive covenant that prohibits conversion of the garage space to living area or to another use and it will require that the garage space remain clear for vehicle parking at all times.
  - b) Each driveway will have a minimum area of seventeen (17) feet wide by twenty (20) feet in depth to allow for the parking of two additional vehicles in the driveway.
  - c) There shall be no on street parking allowed. The covenants will restrict on-street parking and the streets shall all be marked as fire lanes in accordance with Cobb County Code Section 118-231(c) and the plat will also reflect the fire lanes.
  - d) Each purchaser will be required to sign a statement as follows: "As a property owner, I recognize that my home and my neighbor's homes must be accessible by the fire department at all times. Therefore, parking along the street is prohibited. All streets are fire lanes and will be enforced as fire lanes. In order to provide adequate guest parking each home will be required to keep both garage spaces open and available for vehicle parking and keep open two additional spaces in the driveway for vehicle parking so each home will have parking available for four vehicles." Each successive homeowner will also be required to sign this statement.
  - e) These conditions relating to fire access will be a zoning condition enforceable by the county as a zoning condition and by the Fire Department as a fire lane. Additionally, the conditions will be contained within the covenants of the development and enforceable by the homeowner's association.
- 15) The District Commissioner can make minor modifications to these conditions if the modification does not change the purpose of the condition.

The above-described conditions are intended to address concerns regarding buffers, drainage and development intensity. The single-family detached proposal acts as a transition from the intense development located across Spring Hill Parkway from the subject property. Please contact me if you have any questions regarding the proposed conditions.

Very truly yours,
