The Cobb County Zoning Ordinance Section 134-94 states that the Cobb County Board of Zoning Appeals must determine that applying the terms of the Zoning Ordinance without the variance would create an unnecessary hardship. Please state what hardship would be created by following the normal terms of the ordinance:

The site is surrounded on 3 sides by public right of way that totals in excess of 7,000 square feet. Due to the ROW peninsula the site has lost an abnormal amount of yard space. With a typical ROW frontage there would be enough square footage to administratively subdivide.

List type of variance requested: Requesting that the minimum lot size for R-20 be reduced from 20,000 SF to 18,527 SF, and the units per acre be increased to 2.3.
