Re: Application of Asif Raza to Rezone a .96 Acre Tract
from R-30 to R-15 (No. Z-5) with requested Variances to the front
and rear setback requirements on Lot 1.

Dear Jason:

This firm has been engaged by and represents the applicant and property owners concerning the above-captioned application for rezoning. In that regard, the Application is scheduled to be heard and considered by the Cobb County Planning Commission on February 7, 2006 and, thereafter, is scheduled to be heard and considered for final action by the Cobb County Board of Commissioners on February 21, 2006.

With respect to the foregoing and consistent with the dialogue established with the County's professional staff and the District Planning Commissioner, I am proposing the following amended stipulations and requesting the following contemporaneous variances.

The Applicant is requesting a contemporaneous variance to the setback requirements for Lot 1 as shown on the Site Plan. The Variance requested would be to reduce the front setback requirements from 40' to 10' and the rear setback requirements from 30' to 10'. This will allow the single-family residence to face southerly toward the proposed access drive.

The balance of this letter will serve as my clients' expression of agreement with the following stipulations which, upon the zoning application being approved, as amended and modified hereby, shall become conditions and a part of the grant of the requested rezoning and binding upon the subject property thereafter:

1. The stipulations and conditions set forth herein shall replace and supercede in full any and all prior stipulations and conditions in whatsoever form which are currently in place concerning the property which constitutes the subject matter of the above-captioned application for rezoning.
2. The architectural style of the two proposed two-story residences shall be at least three (3) side brick. The price points would be a minimum of \$400,000, 4,000 square foot minimum and each residence would include a three (3) car garage.
3. Subject to recommendations from the Stormwater Management Division with respect to maximum impervious surface coverage at the Site.
4. Following recommendations from the Cobb County Water System with respect to the accessibility and availability of water and sewer, including location of the meter within the right-of-way. Applicant states it has acquired a 20' sanitary sewer easement across 1952 Wellington Lane to allow access to existing sewer underneath Wellington Lane.
5. Following recommendations from the Department of Transportation, including the following:
 - a. Voluntary donation of right-of-way fifty-five feet (55") from the centerline of Johnson Ferry Road.
 - b. Shared driveway access for both residences as shown on the Site plan.
6. Applicant hereby agrees to grant and record a 25' foot wide driveway easement to Lot 2 to provide joint use of the existing driveway and to allow for possible future expansion into a public road should the property located to the south desire to construct two single family homes.
7. Applicant agrees that both homes shall be constructed to face southerly toward the proposed access drive. This will be achieved to provide for uniformity should the property located to the south become developed into two single family residences.
