The Cobb County Zoning Ordinance Section 134-94 states that the Cobb County Board of Zoning Appeals must determine that applying the terms of the Zoning Ordinance without the variance would create an unnecessary hardship. Please state what hardship would be created by following the normal terms of the ordinance:

Owners need to do lot split to sell property for financial hardship.

List type of variance requested: Waive the road frontage on the proposed lot from the required 75 feet to 46.75 feet

Donald,

Per our discussion, the detail on the hardship associated with our variance request has to do with the shape of the lot. The first two house built off the driveway easement (we own the property) received variances for driveway with only 25' wide of road frontage on the easement. After we built our house, our house became the third house on that driveway and there cannot be a fourth house on the driveway.

By leaving the required 75' with our current driveway, we do not have another 75' of road frontage. There is only 46' left and the variance is for a driveway off that 46' of frontage. This is at the end of Morrison road, but it is not a cul-de-sac.

The next driveway adjacent to our property received a variance for 20' of road frontage. That is the driveway directly at the end of Morrison Road.

Thank you you assistance and please let me know if you require additional information

Best Regards,
Eddie Radford
