Hi Rachael,

You are definitely heard. And, I look forward to hearing how your discussions with Kevin go over the next month.

I think this RSL has the potential to be a really nice development for this part of Brookstone, certainly in comparison to the alternative of 83 single family homes (with their much higher infrastructure impact) which could be built today, but you all need to continue to weigh in to help realize that.

Thanks for your involvement.

Skip

Hi skip. I had a chance to watch the video yesterday for z-44. Thank you for mentioning us and listening to what we had to say. We really felt heard.

Take care,
Rachael Gorbutt
